

wishes 2021

Happy holidays of the **Sovereign Shrine Khorshed**,

... Altaïr , Bryan, Charles, Denis, Emilio, Franzina, Gastone, Gérard, Guy, Joseph, Nathan, Sylvie, and others who work tirelessly in the shadows, without forgetting our ... two Alain, Bruno, Carlo, Christian, Patrick, Xavier, Jacques, Jean, Jean-Loup, Michel, Véra ... for these times shaken, ransacked, disturbed, shocked, bloated between the end of a very agitated year and a new year for which it will be necessary, for man, to return to reason.

A reason in love with nature, life, calm, serene, just vision, in conformity with the true nature of the things and beings that inhabit our Mother Earth. To learn again to appreciate the joys but also the awareness of the duties due one must

With warm thoughts,
Deep Affections
Take care of yourself

Gérard Baudou-Platon
President of Sovereign Sshrine, Khoshed

Personal wishes 2021,

There is an incredible diversity of sensibilities in this world that relate to ... the essential.

Whether we like it or not, this is a fact ... It would be pretentious and epistemicidal to see it, otherwise, that is to say constrained to a single thought, however deep it may be. Nothing should be able to dictate the individual conscience. Everything must be part of the possibility of expressing any conviction, of living any experience whether it is secular, Masonic, spiritual or religious. Man is made up of so many inspirations that by sensing him in his multiplicity he is able to guarantee access to unity (Each feeds on others). Access to knowledge admits no hindrance, we affirm it in our rituals !!! ... then each path is an open book towards an unfathomable heritage ... Freemasons are those who walk, who scrutinize and who dig because no advance in conscience is made without constant work and without respect for universal values that implies our true essence ...

2020 will have shown the most harmful of human activity but, unfortunately, not the worst that could, well, be to come if one did not take care. Ordo Ab Chao ... because from these dark moments one can feel the birth of new possibilities and new forms of social, economic, ethical and even family organization. Will they be flushed out to be useful?

The Year 2021, must be the year of recapture because if error is human, persevering in it is diabolical(*)

The progress of science, as well as those achieved by the most profound meditations, inform us and today it will be impossible for us to explain that we did not know ... There is no doubt that man compulsively decides to be a "sorcerer" with games of ... currencies.

We Freemason will not release the "tobacco" because accepting "any smoke screen" makes us guilty.

The secular world must remember that no key is an abacus to attribute a quality or accuracy label to what is or what is happening. Any obligation without acceptance in conscience is subject to an act of liberticide ... The only way out for a world turned towards the discovery of truth and progress whether scientific, social or economic is to make the choice :

Of culture,

Free, independent research,

Free will and free investigation for all researchers (especially those who have vocations and the ability to scrutinize life in these most intimate aspects).

Belief in methodologies presented as sacred is "the coal man's faith" and leads us to a ... trap, mortal (in the scientific world this is aptly described as a "fatal embrace").

It is the duty of all governance to satisfy the means necessary for man, the object of his own research, to be assured of the resources necessary for his mission.

Freemasonry is not intended to interfere in this matter, but every Freemason aware of his role and quality is obliged to ensure that the values useful to human rights, respect for the environment, the balance necessary for each person's life and resources for a respectable existence are satisfied.

There is no violence that is legitimate ...

that this must be inscribed in all the brains in golden letters, all violence must be judged according to the law because every act must be assessed in responsibility and according to an ethics whose principles are set at the highest level in the hierarchy of our constitutions ...

From this point of view our work is enormous and our will must be in the image of that of the most seasoned knights except to leave our planet in hands less concerned with human happiness ...

Freemasonry is not a religious institution. It is a Cultural, Philosophical and Spiritual (often) institution whose purpose is to be the centre of the union of human thought.

Its action involves the creativity of its members.

In all places, at all times, whatever the regimes, it acts for the good of all humanity without exception of any kind and ..., therefore, does not bow to any governance ready to carry ... Freemasons of all Rites, of all Masonic Power, we have to make known what our Art is worth, and what each of us carries - (Wisdom, Strength and Beauty) - what our tools inspire when used by men and women aware of their value and vision for a more harmonious world ...

May the rule, on the universal level, lead us ...

May the compass open in us a wider consciousness and,

May, finally, the square adjusts all our actions ...

May falsehood and cowardice be removed and fought ...

May « exclusion » be removed from our vocabulary ...

Let the so-called Speculative Masonry become Operative ...

and, that, in this our highest principles and the courage to embody them come to our aid

Frère Gérard,

(*) Errare humanum est, sed, perseverare diabolicum ... Sénèque
